Case Study

B2B and B2C Brochure Design
for an International Aquaculture Brand

Brand Objective

The Client, CPF (India) Private Limited is one of the major players in Aquaculture sector in India.
They have both Shrimp and Fish Feed mill, Shrimp hatchery, Shrimp and Fish farm and Shrimp Processing plant located in various places across India.

As a total vertically integrated operator, they have full control of all production process throughout the value chain.

The Objective was to show their expertise in different ways to TWO DIFFERENT Customer Segments- B2B Business Customers and End Consumers.

So Two different Brochures were required.

Insights from Market Research

- Most of the players in the Aquaculture industry were using very generic Brochures

- The designs of the different Company were practically indistinguishable from each other

- There was no different Concepts used separately to communicate to the B2B and B2C Customers

Design Implementation

The freshness of the Products was focussed on.

The Value Proposition for B2B and B2C Customers was represented with clarity.

The technological expertise of the Company was described through infographics.

INTRODUCTION

CPF India

CPF India gained prominence as a reputed seafood company in the food and agro-industrial sector with its top-notch quality, safe, hygienic, and nutritious products. Being a subsidiary unit of the renowned Thai multi-national conglomerate, Charoen Pokphand Group, this $50 billion company came to India in 1994. Its rich experience of 25 years with Indian consumers has made CPF India one among the significant players in this country's aquaculture industry.

With CP FRESH, we bring to you our **FRESHLY CHILLED AND FROZEN SEAFOOD** - Premium Quality assured in every bite!
